

Letter of Thanks

(edited)

From Helen & Wayne Harray, serving in Myanmar

We would like to express our grateful thanks to the church for their wonderful gifts for both this project and the college students (at Tahan Theological College, Kalaymyo) The seven laptops the team carried into the country now brings our total to 12. This has been an enormous boost to our teaching programme. First of all we are able to teach the classes basic computer skills and secondly with the senior group I have been trying to help them to actually write their assignment on the computer, do some research and also use a referencing system.

I also want to give grateful thanks to those who contributed to data projectors - I've also been the recipient of a small compact and very bright projector which I can move around easily.

Thanks also to Grace for her donation of a data projector which I will also use in this department, which means that the college's data project that is already here may be fixed in a permanent position in the meeting room.

Finally I want to also acknowledge the spades that were brought in from New Zealand. They're really great quality and I am enjoying using one spade in my own garden at the moment. It's surprising what a great difference a spade makes; simple but so much better than the equipment that we find here.

Thanks also to the church for your support for our projects at the college. We don't have a great deal of funds for these but money seems to be there when we need it. We will be returning home for a couple of months in the middle of March and we are looking forward to catching up with you then.
